EXPERIENCE

iOS Developer

Dot Pixel Ventures

📅 08/2023 - Present
📍 Ahmedabad, India

- Developed native iOS apps using **Swift** with a focus on performance and clean architecture.
- Built user-friendly UIs with **UIKit** and basic **SwiftUI.**
- Integrated **RESTful APIs** for smooth backend communication.
- Handled **debugging**, **testing**, and performance optimization.
- Managed **App Store submissions**, updates, and provisioning profiles.

SKILLS

Swift	MVC	MVVC
Realm	Firebase	Cocoapod
Protocols	Extension	
Package	SwiftUI	HTML
CSS	Python	Sourcetree
Postman		

EDUCATION

BE in Information Technology

LJ University

CGPA **9.00** / 10.0

📅 08/2022 - 05/2025

Diploma in Information Technology

Gujarat Technological University

CGPA **9.03** / 10.0

📅 08/2019 - 06/2022

S.S.C. (10th Standard)

Doon Internation Public School

📅 06/2018 - 03/2019
- Result- 62.50% / 76.23 Percentile

SUMMARY

Creative and detail-oriented **iOS Developer** with solid experience building native apps using **Swift** and **UIKit**, and a working knowledge of **SwiftUI**. Skilled in integrating **RESTful APIs**, optimizing performance, and managing the full app development cycle—from concept to App Store release. Passionate about writing clean, maintainable code and always looking to improve through learning and exploring new technologies. A practical problem solver who enjoys turning ideas into polished, user-friendly apps.

PROJECTS

MusicNest

Personal Project | Swift, SwiftData, AVFoundation, UIKit

- Implemented core features including **local music playback**, **playlist creation**, **favorites**, **music sharing**, and **audio downloads**.
- Enabled **audio extraction from YouTube**, allowing users to save and play extracted tracks within the app.
- Built a **custom audio player** with support for **play/pause**, **next/previous**, **forward/backward seeking**, and **"Play Next" queue** functionality.
- Designed a **custom tab bar interface** for a polished, modern user experience.
- Integrated **SwiftData** for offline music storage, playlist management, and state persistence.
- Added **search functionality** for quick access to songs and playlists.

ChatterBox

Personal Project | Swift, Firebase, Google Sign-In, UIKit

- Implemented **Firebase authentication** with Email/Password and Google Sign-In, including login, signup, password reset, and profile editing.
- Built a **customizable chat UI** with options to modify backgrounds, colors, borders, and message styles.
- Enabled sharing of **images, videos, documents, contacts, camera photos**, and **live location** (Google/Apple Maps support).
- Added **message forwarding**, **media downloads**, and contact actions like **direct call** and **copy number.**
- Created **custom gradient image generation** for enhanced chat visuals.
