EXPERIENCE

DotPixel Ventures

iOS Developer

Developed iOS applications using Swift and SwiftUI.

Integrated RESTful APIs and handled data processing within applications.

TechInnate Solutions OPC Private Limited

iOS Developer

Built iOS applications using Swift and Xcode.

Integrated backend APIs and managed data flow between applications and servers.

Aug 2023 – Aug 2025

Ahmedabad, India

Jun 2022 – Jul 2023

Ahmedabad, India

PROJECTS

MusicNest – Music Player App

Developed a feature-rich iOS music player using Swift, UIKit, and AVFoundation.

Implemented playlist creation, favorites, audio downloads, and local music playback.

Built a custom audio player with play/pause, next/previous, and seek controls.

Integrated SwiftData for offline storage, playlist management, and state persistence.

Designed a custom tab bar UI and added search functionality for songs and playlists.

GitHub: View Project

ChatterBox – Chat Application

Built a real-time chat application using Swift, UIKit, and Firebase.

Implemented authentication with Email/Password and Google Sign-In.

Enabled sharing of images, videos, documents, contacts, and live location.

Developed customizable chat UI with themes, gradients, and message styling.

Added features like message forwarding, media downloads, and contact actions.

TECHNICAL SKILLS

Programming: Swift, Python

iOS Development: UIKit, SwiftUI, MVC, MVVM, App Lifecycle, Auto Layout

Frameworks & APIs: AVFoundation, Firebase, RESTful APIs, Google Sign-In

Data Storage: SwiftData, Realm, Core Data (basic)

Tools: Xcode, Git, GitHub, CocoaPods, Swift Package Manager, Postman, Sourcetree

Concepts: Protocols, Extensions, Delegation, Memory Management, Debugging, Performance Optimization

UI/UX: Custom UI Design, Animations, Responsive Layouts

Languages: English (Fluent), Gujarati (Fluent), Hindi (Proficient)

EDUCATION

Bachelor of Information Technology

LJ University

GPA: 9.00 SPI

Diploma in Information Technology

LJ Polytechnic

GPA: 9.03 CGPA

Sep 2022 – May 2025

Ahmedabad, India

Aug 2019 – Jul 2022

Ahmedabad, India

KEY ACHIEVEMENTS

Developed a feature-rich music player (MusicNest) with offline storage, playlist management, and custom audio controls using AVFoundation.

Built a real-time chat application (ChatterBox) with Firebase authentication and multimedia sharing (images, videos, documents, location).

Designed and implemented customizable UI features including themes, gradients, and chat personalization for enhanced user experience.
